Subject: Fw: Follow up question
From: Linda Miller/R3/USEPA/US - Friday 08/27/2010 08:25 AM

This is a follow up to AL-10-000-8612 , attached. I contacted the Congressman's office and told him we would be working on a response. I suggest Deane's information below be provided in a letter to the Congressman. The Congressman's staff is also asking for additional detail on the funding of the project. (I suggest the opening..... Thank you for your staff's additional questions of August 5, 2010 on behalf of your constituent, Mr. . As a follow up to my letter of June 24th,) Please control the August 5 email as an R3. Thanks! Linda

Subject: RE: Follow up question

Thank you. At this point we can no longer pursue this inquiry any further. I will need an official letter from the EPA stating this information so I can complete this inquiry. If the letter could also include some clarification on the funding of this project, as well as, the information provided in the email below. I think with the clarification of the funding this adequately responds to our constituent's concerns and we can close this case. It will then be up to Mr. if he would like to pursue this further after the ruling of the Circuit Court of Baltimore County. Please let me know.

Thank you very much.
